

The Booster Club would like to welcome you to the 2013-2014 school year! We are gaining significant ground as an academy and anticipate even more growth and opportunities this year.

GITA provides impressive educational and career pathways for our students. As the GITA Booster Club, our purpose is to enrich and enhance your student’s academy experience. The school district cannot provide all of what we seek to offer the students – so we seek to make up the difference. Here are some of the significant benefits to the academy students that we support:

1. Providing equipment for students, such as new computers, tablets and software.
2. Funding for scholarships.
3. Assistance with general activities (such as new student orientation, parent networking opportunities).
4. Working with local business leaders to cultivate relationships which foster “real world” learning experiences.
5. Facilitating in-class speakers, company tours, internship and voluntary service opportunities.
6. Seeking opportunities to involve organizations in investing in our students.
7. Fostering relationships with local colleges and universities – giving students the experience of campus life and connecting with other IT students.
8. Outreach to the community (providing educational opportunities on IT topics and information about GITA).

100% of the dollars we collect are used for academy purposes only. We encourage your membership and participation in the Booster Club. Please consider making a donation which is tax deductible (TAX ID# 20-8935162). We also accept donations from businesses, family and friends. It is a great academic investment!

Thank you for your support!

GITA 2013-2014 Membership

Student(s)
Name _____ Grade(s) _____
